

PROGEN
passion for research

Do you share our passion for life sciences?

Join us as

Junior Product Manager (full time)

As **Junior Product Manager (full time)**, you will be responsible for the day-to-day management of our life science tools portfolio. You will report directly to the Head of Product Management.

Your assignments

- Research markets, determine customers' needs and identify opportunities for growth
- Provide input to product improvements & development
- Assist in the development of pricing strategies and production forecasts
- Draft and update product information, datasheets, user manuals, etc.
- Act as coordinator for cross-functional teams - R&D, QM/QC, Marketing, Sales, Scientific Support, and Production
- Occasional travels required

Your skill set

- Master or Bachelor degree in life science (ideally with a focus on cell biology or immunology)
- Open, communicative, networking personality
- Ability to manage multiple priorities with a problem-solving attitude
- Profound interest in and understanding of customer behavior
- Demonstrated ability to interpret market data and to offer insight and recommendations for business opportunities
- Solid computer & data analysis skills
- Fluent communication skills both written and spoken in English (level B2) and German (level C1)

About PROGEN

Since 1983, PROGEN has been an established manufacturer and supplier of premium antibodies, in vitro diagnostics, and reagents for the global life science research community. While PROGEN's antibodies are among the most published antibodies in biomedical and cell biology literature, its ELISA kits aim at niche markets in microbiology, infectious diseases and immunology. Building on its extensive core-competency and experience in immunochemistry, the company has expanded its product and service portfolio in recent years to include recombinant antibody engineering, antibody phage display technology, density gradient media, and AAV test kits for gene therapy research.

At PROGEN you can enjoy the advantages of a small company, such as open communication, low hierarchies, strong team spirit, and flexible working models. We are looking forward to expand our team in Heidelberg with a motivated, creative new colleague who shares our passion for research!

Please send your CV and cover letter including salary expectations and possible start date to Dr. Dana Holzinger, Head of Product Management, at personal-pm@progen.com.
